Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA:
Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of US Copyright Law, provided as fee is paid. This fee is US $ 0.20 per page or a minimum of US $ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0028-3940, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Table of contents

Originals

Avrahami E, Chen Z, Solomon A: Modern high resolution computed tomography (CT) diagnosis of longitudinal fractures of the petrous bone 166

Barkhof F, Valk J: "Top of the basilar" syndrome: A comparison of clinical and MR findings 293

Biedert S, Winter R, Betz H, Reuther R: The efficacy of EC-IC anastomoses: Evaluation by directional c-w Doppler sonography 98

Biondi A, Scialfa G, Scotti G: Intracranial aneurysms: MR imaging 214

Boulay GH du, Woods AJ, Teather D, Teather BA, Wills KM, Plummer D: Towards an advisor for MRI 245

Britton J, Marsh H, Kendall B, Kingsley D: MRI and hydrocephalus in childhood 310

Bydder GM, Pennock JM, Porteous R, Dubowitz LMS, Gadian DG, Young IR: MRI of intracerebral haematoma at low field (0.15T) using T_2 dependent partial saturation sequences 367

Castillo M, Quencer RM: Percutaneous needle evaluation of intradural extramedullary lesions of the lumbar spine 551

Chui MC, Bird BL, Rogers J: Extracranial and extraspinal nerve sheath tumors: Computed tomographic evaluation 47

Chung JW, Chang KH, Han MH, Kim BH, Song CS: Computed tomography of cavernous sinus diseases 319

Crenier N, Vital J-M, Greselle J-F, Richard O, Houang B, Pinol-Daubisse H, Senegas J, Caille J-M: CT-diskography in the evaluation of the postoperative lumbar spine - preliminary results 232

Daniels DL, Czervionke LF, Yu S, Ho PSP, Pech P, Pojunas KW, Williams AL, Haughton VM: The effect of patient positioning on MR imaging of the internal auditory canal 395

Dietemann JL, Beigelman C, Rumbach L, Vouge M, Tajahmady T, Faubert C, Jeung MY, Wackenheim A: Multiple sclerosis and corpus callosum atrophy: Relationship of MRI findings to clinical data 478

Dietemann JL, Runge M, Badoz A, Dosch JC, Beaujeux R, Bonneville JF, Wackenheim A: Radiology of posterior lumbar apophyseal ring fractures: Report of 13 cases 337

Dvorak J, Penning L, Hayek J, Panjabi MM, Grob D, Zehnder R: Functional diagnostics of the cervical spine by using computer tomography 132

Dyk A van: CT of intracranial tuberculomas with specific reference to the "target sign" 329

Franke CL, Versteege CWM, Gijn J van: The best fit method. A simple way for measuring the volume of an intracerebral haematoma 73

Garcia-Cervigon E, Bien S, Rüfenacht D, Thurel C, Reizine D, Tran Ba Huy P, Merland JJ: Pre-operative embolization of naso-pharyngeal angiofibromas. Report of 58 cases 556

Giang DW, Perlin SJ, Monajati A, Kido DJ, Hollander J: Vertebrobasilar dolichoectasia: Assessment using MR 518

Grodd W, Klose U: Sodium-MR-imaging of the brain: initial clinical results 399

Grunebaum M, Ziv N, Kornreich L, Horev G, Lombrozo R: The sonographic signs of the peritoneal pseudocyst obstructing the ventriculo-peritoneal shunt in children 433
